Underwater video drowning prevention system											
Serial number	Name Brand		model	Specifications	Unit	Quantity	Unit Price	Subtotal	Remarks		
1			System software: Yaolong Intelligent YL-M-V1.0	1. Through the HD camera of the swimming pool, based on artificial intelligence deep learning, Establish a drowning prevention model. 2. The system response time is no more than 2 seconds. 3. Use colors to mark the safety status of people in real-time video. When a security risk is detected, switch to the corresponding camera immediately and Mark on the video. 4. Use different colors to indicate the crowding level in the swimming pool to alert lifeguards Focus on this. 5. It has functions such as equipment management, personnel management, and watch management. 6. It has data monitoring and risk warning functions, and can be customized. 7. Provide a swimming pool alarm data dashboard to facilitate online supervision. 6. Support lifeguard management, support lifeguards to log in and patrol regularly Check. 8. Can interface with the membership system to provide online videos. 9. Support alarm service, alarm data can be transmitted through watches, tablets, etc. Send to the responsible person. 10. Support online video viewing. 11. It has statistical analysis function, which can be used to analyze the Statistical analysis is performed on multiple dimensions such as the location of the museum to predict risks in advance and avoid Avoid accidents	Set	1		¥40.50	¥40.50		
2			Server Yaolong Intelligent YL-M-FWQ	Use a branded server with server parameters no less than: 1. CPU: Intel Xeon quad-core 3.5-4.7GHz; 2. 32G memory; 2*1T hard disk RAID1; 3. Provide 21 LCD displays; 4. 1Gbe network card; 5. 250W80plus platinum power supply;	1	¥7,654.00	¥7,654.00				
3			AI Camera Yaolong Intelligent YL-M-AI	1. Support algorithm analysis and built-in posture recognition algorithm. 2. It has a defog function and can be used in venues for a long time. 3. Support 2048x1536@30fps high-definition image output. 4. Support 30x optical zoom and 16x digital zoom. 5. Support low bit rate, low latency, and ROI region of interest enhanced encoding code. 6. Support 3D digital noise reduction and 120dB wide dynamic range. 7. Waterproof grade IP66 strong anti-interference ability.	Table	12	¥360.00	¥4,320.00			
4			Video storage Yaolong Intelligent YL-M-CC	1. Support 16 channels of video; 2. Network input bandwidth 80Mbps; 3. Network data bandwidth 80Mbps; 4. Support HDM and VGA video output; 5. Supports a maximum of 32TB storage, with 16TB built-in.	Taiwan	1		¥650.40	¥650.40		
5			POE switch Yaolong intelligent YL-M-JHJ	1. Support POE power supply, the standard is IEEE 802.3af, IEEE 802.3at; 2. Number of POE ports: 8 ports, Gigabit 3. Switching capacity: 20 Gbps 4. Working temperature: 0 °C ~ 40 °C 5. Working humidity: 5%-95% (no condensation) 6. Support 6 KV surge protection (PoE port) 7. Rugged high-strength metal casing.	Taiwan	3		¥920.00	¥2,760.00		
6			Alarm Watch Yaolong Smart YL-M-SH	1. Waterproof: IPX6 (life waterproof) 2. Receiving distance: 200 meters radius. 3. With regional display function. 4. Reminders can be given through sound, vibration, etc. 5. Continuous working time is not less than 8 hours.	Taiwan	4	¥1,195.75	¥4,783.00			
7			Installation accessories Yaolong intelligent customization	You need to provide racks, power supplies, distribution boxes, routers, switches, etc. The installation accessories required for the system.	Set	1	¥3,948.50	¥3,948.50			
8			Installation and Debugging	System installation, debugging, training, etc.	Set	1	¥26,500.00	¥26,500.00			
			total:					¥50,656.40
